

# HPE 1200W COMMON SLOT PLATINUM PLUS HOT PLUG POWER SUPPLY KIT (656364-B21)

## Server Power Supplies

### WHAT'S NEW

- Lower-cost 460W, 750W, 1200W Platinum, and 1500W -48 VDC power supply options for ProLiant Gen9, Moonshot, and ProLiant Gen8 servers.
- Hot-swappable, tool-less installation for HPE servers and storage solutions.

### OVERVIEW

Looking to reduce energy cost and space with increased performance?

HPE Common Slot Power Supplies share a common electrical and physical design that allows for hot-swap, tool-less installation into HPE server and storage solutions. These power supplies are available in multiple, high-efficiency input and output options, allowing you to "right-size" a power supply for specific server/storage configurations and environments. This flexibility helps to reduce power waste, lower overall energy costs, and avoid "trapped" power capacity in the data center.

The power supplies provide the IT industry's highest level of power efficiency (up to 96%), helping users to reduce power requirements per server and reducing overall data center power requirements. The Platinum Plus and Titanium power supplies also enable HPE Power Discovery Services which

focus on increasing compute density while reducing data center outages.

## FEATURES

### Best in Class Power Supply Technology

HPE Common Slot Power Supplies are designed to simplify the serviceability and maintenance of power supplies across the HPE portfolio of server and storage products by being hot-swappable and providing a tool-less installation.

Multiple power management options deliver greater power efficiency when using redundant power supplies to reduce overall power usage.

Multiple input and output options deliver increased flexibility in usage while reducing the chances of creating "trapped" power capacity in the data center.

HPE Common Slot Power Supplies have Titanium level certification by both the 80Plus program and the EPRI providing the highest level of power efficiency (up to 96%) in the IT industry.

Higher-end power supplies offer HPE Power Discovery Services that help customers reduce human error during the installation process, reclaim over-provisioned power capacity in the data center, and accurately measure/monitor power usage.

## Technical specifications

### HPE 1200W Common Slot Platinum Plus Hot Plug Power Supply Kit

<b>Product Number (SKU)</b>	656364-B21
<b>Power supply type</b>	Common Slot
<b>Input voltage</b>	100V - 240V AC
<b>Power output</b>	1200W
<b>Efficiency</b>	94%
<b>Product Dimensions (metric)</b>	3.81 x 8.63 x 19.05 cm
<b>Weight</b>	1.36 kg

Most, if not all IT organizations are on a digital transformation journey — each at a different stage. With over 11,000 IT projects conducted and 1.4 million customer interactions each year, [HPE Pointnext Services](#)' 15,000+ experts and its vast ecosystem of solution partners and channel partners are uniquely able to help you at every stage of your digital transformation. We bring together technology and expertise to help you drive your business forward and prepare for whatever is next.

Advisory and Professional Services help you accelerate your digital transformation. [Operational Services](#) help you remove complexity and respond rapidly to business demands.

### **Operational Services from HPE Pointnext Services**

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

- **[HPE Datacenter Care](#)** helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
