

HPE IMC BASIC EDITION SOFTWARE PLATFORM WITH 50-NODE E-LTU (JG546AAE)

Intelligent Management Software

WHAT'S NEW

- Integration with Aruba AirWave, ClearPass and HPE OneView.
- Cisco Nexus support.
- VXLAN support.
- API enhancements.

OVERVIEW

The HPE Intelligent Management Center (IMC) Basic Software Platform is a network management, software tool with unified resource and device management providing a lower total cost of ownership. The platform is designed for small- to medium-sized businesses with small network environments that need a single display screen to show their network infrastructures. It also provides information for trend analysis and capacity planning.

The Intelligent Management Center (IMC) Basic Software Platform supports Hewlett Packard Enterprise and third-party devices and has a fixed-device limit of 50 nodes.

FEATURES

Comprehensive Network Management for Small Networks

The HPE Intelligent Management Center Basic Software Platform is aimed at small- and medium-sized businesses or customers with small network environments and integrates fault management, element configuration, and network monitoring from a central vantage point with multi-vendor device support.

Contains license support for a maximum of 50 managed devices.

Simply and easily manage smaller networks from a central point.

Experience lower total cost of ownership (TCO) with less need for maintenance.

Leverage Data to Better Manage Your Networks

The HPE IMC Intelligent Management Center Basic Software Platform includes flexible and centralized reporting to provide information needed for network trend analysis and capacity planning. Customization options allow you to define parameters.

Integrated sFlow traffic analysis collects flow information from capable devices to identify bottlenecks, recognize anomalous traffic, and measure varying levels of traffic bandwidth to different services and applications. Provides a top-down view of traffic topology.

Monitors performance through TopN, trend analysis, summary data, and graph displays for wireless device statuses, alarm statistics, and AP traffic monitoring.

Technical specifications**HPE IMC Basic Edition Software Platform with 50-node E-LTU**

Product Number (SKU)	JG546AAE
Differentiator	Electronic delivery of license for HPE IMC Basic Edition Software Platform with 50-node E-LTU
Browser supported	Firefox 30 or later Chrome 35 or later Internet Explorer 10 or 11.
Software (required)	Database: Microsoft SQL Server 2008 Service Pack 3 (Windows only) Microsoft SQL Server 2008 R2 Service Pack 2 (Windows only) Microsoft SQL Server 2012 Service Pack 2 (Windows only) Microsoft SQL Server 2014 (Windows only) MySQL Enterprise Server 5.5 (Windows only) MySQL Enterprise Server 5.6 (Windows only).
Software (recommended)	Client: Windows XP SP3 or later.
Minimum system requirements	Server: Intel® Pentium® 4 3.0 GHz, 4 GB RAM memory, 50 GB storage, 10/100 Mbps NIC Client: Intel® Pentium® 4 2.0 GHz, 2 GB RAM memory, 50 GB storage, 10/100 Mbps NIC.
System requirements, recommended	Server: 3.0 GHz Intel® Xeon® or Intel® Core™ 2 Duo processor or equivalent 4 GB RAM 100 GB 10/100 Mbps.
Technical notes	Operating systems marked X64 are recommended. Client: JRE 1.6.0_update 27 or later is recommended. For 50 nodes, (1) CPU is sufficient.

Most, if not all IT organizations are on a digital transformation journey — each at a different stage. With over 11,000 IT projects conducted and 1.4 million customer interactions each year, [HPE Pointnext Services](#)' 15,000+ experts and its vast ecosystem of solution partners and channel partners are uniquely able to help you at every stage of your digital transformation. We bring together technology and expertise to help you drive your business forward and prepare for whatever is next.

Advisory and Professional Services help you accelerate your digital transformation. [Operational Services](#) help you remove complexity and respond rapidly to business demands.

Operational Services from HPE Pointnext Services
